

Business Views Administrator Guide

Who should take care of your small business's 401(k) planning and administration? Here are three tips for choosing the right administrator.

Council Post: Three Tips For Choosing The Right Third ...

A system administrator, or sysadmin, is a person who is responsible for the upkeep, configuration, and reliable operation of computer systems; especially multi-user computers, such as servers. The system administrator seeks to ensure that the uptime, performance, resources, and security of the computers they manage meet the needs of the users, without exceeding a set budget when doing so.
