

Statistics For The Life Sciences

Employment of life, physical, and social science occupations is projected to grow 10 percent from 2016 to 2026, faster than the average for all occupations, which will result in about 124,800 new jobs. Increasing demand for expertise in the sciences, particularly in occupations involved in ...

Life, Physical, and Social Science Occupations ...

NUS Life Sciences Major is about biological and biomedical disciplines and more. NUS Life Sciences Major emphasises the underlying knowledge vital to all areas of Life Sciences in the first year of study, and allows selection of relevant advanced-level modules to focus on one of the three specialisations and other exciting themes in Life Sciences.

NUS Life Sciences Undergraduate Programme

Statistics is a branch of mathematics working with data collection, organization, analysis, interpretation and presentation. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. Populations can be diverse topics such as "all people living in a country" or ...
